

ROMAN EMILIANO ARENAS Full Stack Developer | DevOps

Contact Information: Email: roman.ea3232@gmail.com Phone: +542281568550 Location: Azul, Buenos Aires Province, Argentina LinkedIn: <https://www.linkedin.com/in/roman-emiliano-arenas-55b8561aa/>

PROFESSIONAL SUMMARY Experienced Full Stack Developer and DevOps Engineer with 4+ years developing scalable web applications using React, Node.js, Vue.js, and Next.js. Proven expertise in cloud infrastructure, containerization, CI/CD pipelines, and microservices architecture. Strong background in artificial intelligence integration, blockchain development, and IoT solutions. Demonstrated success working remotely with international teams and delivering enterprise-level software solutions.

CORE TECHNICAL SKILLS

Programming Languages: JavaScript, Python

Frontend Technologies: React, Vue.js, Next.js, React Native, Angular, Redux, Vuex, Webpack, Babel, SASS, LESS, Bootstrap, Tailwind CSS, Material-UI

Backend Technologies: Node.js, Express.js, NestJS, Fast API, RESTful APIs, GraphQL, Microservices, Serverless Architecture, API Gateway, WebSockets

Database Technologies: PostgreSQL, MySQL, MongoDB, Redis, DynamoDB, Firebase, Prisma, Sequelize, TypeORM

DevOps & Cloud Infrastructure: Docker, Kubernetes, AWS, Azure, Google Cloud Platform, Jenkins, GitLab CI/CD, GitHub Actions, Terraform, Ansible, CloudFormation, Infrastructure as Code

Monitoring & Logging: Prometheus, Grafana, ELK Stack, CloudWatch, New Relic, Datadog, Splunk

Version Control & Collaboration: Git, GitHub, GitLab, Bitbucket, Jira, Confluence, Slack

Testing & Quality Assurance: Jest, Cypress, Unit Testing, Integration Testing, End-to-End Testing, Test-Driven Development

Automation & Integration: n8n, Zapier, Python Scripting, Webhook Integration, API Integration

Emerging Technologies: Artificial Intelligence, Machine Learning, Blockchain, Ethereum, Smart Contracts, Internet of Things, Edge Computing

Methodologies: Agile, Scrum, Kanban, DevOps, CI/CD, Test-Driven Development, Microservices Architecture, MVVM, MVC

PROFESSIONAL EXPERIENCE

Software Developer | Meetlabs 07/2024 - Present | Lima, Peru (Remote)

- Develop intelligent and autonomous software solutions integrating AI, blockchain, and IoT technologies
- Implement microservices architecture using Node.js, Docker, and Kubernetes for scalable applications
- Collaborate on Xynapse development project using cutting-edge technology stack
- Design and deploy cloud infrastructure on AWS using Infrastructure as Code principles
- Establish CI/CD pipelines improving deployment efficiency by 40%
- Work with cross-functional international teams in agile development environment

Academic Tutor - Web Technologies | Teclab Instituto Tecnico Superior 10/2023 - Present | Buenos Aires Province, Argentina (Remote)

- Teach modern web development technologies including React, Vue.js, Node.js, and full-stack development
- Develop comprehensive curriculum covering HTML5, CSS3, JavaScript ES6+, and responsive design
- Mentor students in practical software development projects and industry best practices
- Create educational content focusing on modern development workflows and DevOps practices
- Guide students through version control, testing methodologies, and deployment strategies

Full Stack Programmer | redUsers 06/2019 - 03/2023 | Argentina (Remote)

- Developed web applications using MVVM architecture pattern with Vue.js and React frameworks
- Built responsive user interfaces with HTML5, CSS3, and modern JavaScript ES6+
- Implemented RESTful APIs using Node.js and Express.js with PostgreSQL and MongoDB databases
- Maintained and optimized existing applications improving performance by 30%
- Collaborated with remote teams using Git version control and agile methodologies
- Integrated third-party APIs and services for enhanced application functionality

EDUCATION

Technical Degree in Programming/Software Development Teclab Instituto Tecnico Superior
Specialization: Web Technologies and Software Engineering

CERTIFICATIONS & CONTINUOUS LEARNING

- AWS Cloud Practitioner (pursuing)
- Docker Containerization
- Kubernetes Orchestration
- CI/CD Pipeline Implementation
- Agile Project Management

LANGUAGES Spanish: Native English: C1

KEY ACHIEVEMENTS

- Successfully delivered 15+ web applications using modern JavaScript frameworks
- Implemented DevOps practices reducing deployment time by 50%
- Led remote development teams across different time zones
- Integrated AI and blockchain technologies in enterprise applications
- Mentored 200+ students in web development technologies

ADDITIONAL QUALIFICATIONS

- Remote work experience with distributed international teams
- Strong problem-solving and analytical thinking skills
- Excellent communication and mentoring abilities
- Passionate about emerging technologies and continuous learning
- Experience with startup environments and enterprise-level projects
